### SUMMARY

I have a strong passion for data analysis and problem-solving. I have learned and practiced data visualization, SQL, and Python for data processing. I am eager to apply my analytical skills and gain hands-on experience in a professional environment. I am responsible and proactive, with a strong willingness to learn.

---

### PROJECT

#### Tea Sales Management WebApp ([github](#), [sql](#))

Technologies Used: Django, PostgreSQL, D3.js, SQL

- I built a web-based tea shop management system using Django and PostgreSQL, loading data from CSV files.
- I developed a user-friendly interface and integrated an interactive dashboard using D3.js
- I performed SQL analysis in a Jupyter Notebook to explore sales data.

#### Travel Recommendation System from Traveloka Data ([github](#))

Technologies Used: Selenium, Pandas, Numpy, Tableau, Django

- I developed a travel analytics project by crawling hotel, tour, and flight data from Traveloka.
- I cleaned and visualized data using Tableau to uncover travel trends.
- I implemented cosine similarity and recommendation algorithms to suggest budget-friendly packages.
- I deployed the system to a website with an interactive interface for users.

#### Job Market Analysis ([tableau](#))

Technologies Used: Pandas, Numpy, Tableau

After performing statistical analysis and data preprocessing, I designed the analysis storyline and built interactive dashboards using Tableau. There are three dashboards, each corresponding to a key narrative: an overview of the labor market, career advice for candidates, and job quality insights.

#### Multimodal Machine Learning Application Combining Natural Language Processing and Computer Vision for Real Estate Price Prediction

Technologies Used: Pandas, Numpy, Computer Vision, NLP

#### Anime Recommend System

Technologies Used: Selenium, Tableau, SQL, Django

---

### SKILLS

**Programming:** Python, SQL, JavaScript

**Data Visualization:** Tableau, Power BI, Looker Studio, D3.js

**Systems & Automation:** Django, Selenium

**Machine learning:** Computer Vision, NLP

---

### EDUCATION

#### Da Nang University of Economics

- Academic excellence – GPA 3.87/4.0 (prior to current semester)
- Won Third Prize in the Student Scientific Research Competition, Faculty of E-commerce 2025

### CERTIFICATES

#### TOEIC

650/990 (2023-2025)

Equivalent to Intermediate level
